DON'T LOSE REVENUES BECAUSE OF POWER OUTAGES AGAIN

RXPOWER

Recent Outages Have Been a Wakeup Call

Invest in an insurance policy for your operations to avoid future disruptions to production from unreliable power supplies. Next time the power lines go out, you will be able to continue operations with a standby generator. With guaranteed run time and guaranteed maximum three-hour response time within the Permian Basin, RXPower will enable you to have confidence in your continued power through future storms and routine grid issues throughout the region.

Standby Power Offerings from RXPower

- 45 kW, 100 kW, 450 kW, up to 4 MW and everything in between
- Tier 3 Standby on locations with existing permanent power
- Standard spec'ed with block heaters, battery chargers and automatic transfer switch
